

A RICH, computer-based science curriculum for grades 4-9

- ★ 3 Disc Program covers Life Science, Physical Science, and Earth & Space Science
- ★ Reference Tools include Science Encyclopedia and Glossary
- ★ Learning Challenges include: Brain Teasers, Crossword Puzzles, Games, and more

LEARNING LABS

get your student on the **PATHS TO SUCCESS!**

Blue Bengal Learning has redefined the way today's students experience science with the "3 Paths to Success" - a unique learning technique that lets students choose the way they learn with interactive-based, picture-based, and word-based learning. This standards-based program provides all the tools needed to increase student engagement and improve test scores.

THIS 3 DISC PROGRAM covers:

life science

- Anatomy & Physiology
- Cells
- Diversity & Adaptation
- Populations & Ecosystems
- Reproduction & Heredity

physical science

- Electricity and Magnetism
- Energy Transformations
- Forces and Motion
- Matter
- Work and Simple Machines

earth-space science

- Astronomy
- Dynamic Earth
- Earth Forces
- Rock and Minerals
- Weather

more about this program:

ENGAGE STUDENTS WITH A DIMENSIONAL EXPERIENCE

- "3 Paths to Success" gives students a choice with interactive-based, picture-based, and word-based learning.
- Enhanced visualization and colorful audio brings science labs to life.
- Interactive experience encourages student involvement.
- Unmatched ease-of-use keeps the focus on learning.

A PROVEN APPROACH IN EDUCATION

- Research-based subject matter and results.
- National Science Education Standards (NSES) based curriculum.
- Compliant with No Child Left Behind (NCLB) requirements.
- Recommended pre-test and final examination to track individual effectiveness.
- Multiple learning paths help kids regardless of their learning differences.
